# BACHELOR'S DEGREES IN **PSYCHOLOGY** **AND NEUROSCIENCE**

At UNH you will receive a hands-on education, laying the foundation for a successful career in psychology. Our focus on independent undergraduate research puts you ahead from day one.

## Your future

The principles of psychology are readily applied to virtually all work environments. At the end of four years you can be prepared for a wide range of career opportunities, depending on the choices you make along the way. As a psychology student at UNH, you will have the opportunity to participate in community outreach projects to gain practical hands-on experience.

The Violence Response and Resilience lab at UNH is looking for students who want experience putting research into practice. It's a great opportunity for students who want to earn independent study credit towards their degree. Students will learn skills in data collection and management, learn more about research design, and learn about violence prevention research that connects the science of psychology to real world applications.

## What will you be studying?

### The Bachelor of Arts degree

The Psychology major provides students with a broad education, while also allowing some specialization. The program exposes students to the scientific study of behavior and encourages an increased understanding of the behavior of humans and animals.

### The Bachelor of Science degree

The Neuroscience and Behavior major offers a program of study in disciplines important to understanding brain function. The program provides strong preparation for entry into graduate programs in behavior, medicine, neuroscience, and pharmacology.

## Program highlights

- Ranked #117, *U.S. News & World Report*.
- Honors Program
  - Psychology majors may earn a B.A. with Honors in Psychology by taking honors courses and working closely with a faculty member to complete a Senior Honors Thesis.
- Haslerud Conference
  - Undergraduate Psychology majors present their research at this annual conference sponsored by the Psychology Department.
- Internships
  - Undergraduate majors earn academic credit for work experience in the field of counseling.
- Psychology Club
  - A student-run organization promoting activities of interest to psychology students.

**U.S. NEWS & WORLD  
REPORT 2016**

**PUBLIC UNIVERSITY**

## Noteworthy courses

### Animal Cognition

How animals perceive, attend to, process, store, and represent information from their environment.

### Madness in America

Examines how popular and professional concepts of mental illness are shaped by historical events, as well as scientific and medical research.

### PSYC 793 – Internship

A maximum of four credits may be applied to the Psychology major.

**“It’s a really great experience for the students and great career prep in an area that undergraduates don’t really think of.”**

**GARY GOLDSTEIN**

Associate Professor of Psychology and Program Coordinator
